The Offshore Report

## Offshore Accountants

### Our Professional Code of Practice

We all have a duty of care to act in the best interests of our clients.

With globalisation affecting small to medium businesses, as professional advisers, should we not be exploring business opportunities in other countries on behalf of our clients.

International tax planning, foreign investment, mergers and outsourcing are already a necessity for many small trading companies. AMP & Partners Limited can assist with your global needs which include; releasing equity, re-financing, property consultancy, raising capital, tax-planning, trust and corporate services.

As an independent group we are able to provide a very personalized service and endeavour to satisfy the many differing needs of our clients and business associates. We are always seeking to develop new relationships with financial intermediaries, accountants, lawyers and real estate agents to further mutual business aims.

## Jurisdiction

### For tax planning

purposes AMP & Partners Limited is based in Gibraltar. However, AMP & Partners Limited's services are not limited to Gibraltar and we regularly visit our clients on the Costa Del Sol, Spain and in other countries. AMP & Partners has Professional Indemnity Insurance cover and is registered with the Data Protection Agency in Gibraltar.

## Personnel

Our company has over fifty years of experience in the 'offshore' financial and property fields with personnel trained in accountancy, marketing and retailing to provide you with a range of skills needed to help your business to expand. Whatever you or your client's goals may be, we can tailor make bespoke solutions to suit your specific needs. Our intention is to provide long term solutions that are designed to help businesses grow and to protect wealth offshore.
