AMP newswire nov

WEALTH CREATION AND INTERNATIONAL BUSINESS SERVICES

NEWSWIRE November

2007

Introduction

Welcome to AMP& Partners Limited's first Newswire.

This newswire is intended to be sent out fortnightly to keep AMP's clients informed of new company developments and international news items that may be of interest. The newswire will also be sent to professional advisors, intermediaries and other contacts of AMP & Partners Ltd.

Gibraltar Regulated Fund

AMP & Partners Ltd
is soon to launch a

new SIPP & SSAS compliant emerging market real estate fund (regulated by the FSC) to take advantage of opportunities in Morocco, Germany and other countries. With smaller emerging market funds returning on average 17 to 23 percent per annum the AMP Emerging Market Land Fund (EMLF) aims to increase investors capital by 46% per annum. Early fund investors, prior to launch, will receive additional benefits. [Read more](#)

Plots of land for sale near Marbella on the Costa del Sol, Spain with planning permission to build luxury villas. Read more

Pension and investment planning utilizing the latest, cutting edge, real-time trading platform.

Most of us in todays world are just too busy, working hard, running our businesses to pay the attention needed to plan properly for our future needs. Meanwhile our money sits in the bank earning little interest. Our bank, stockbrokers and other financial traders utilize cutting edge technology to earn themselves double digit returns year on year, trading in the worlds financial markets. With computerised stop loss systems, losses can be minimised and gains banked safely. Shortly, AMP & Partners will soon have access to the same technological facilities with a view to giving its clients the potential to capitalise on stock market and commodity gains for the long-term future. Achievable annual returns range from between 15 to 55 percent per annum. The minimum investment requirement is €10,000. Please click here to register your interest.

Editor's tax saving tip of the month

E-Commerce;

The location of your server and ownership of your website is crucial when setting up a new business. This especially if your business is international in nature and expected to bring-in new revenue streams in the future from abroad. Why pay tax in your home country on all of your international sales, when overseas income can legally be zero rated? For more information, [Read more](#)
